**DSR™**

## Nymity DSR™ Data Subject Request Management Solution

Monitor and manage Data Subject Requests efficiently and confidently with Nymity's new DSR Management Solution. Our solution helps ensure you meet your legal obligations, while taking the guesswork out of preparing responses saving time and money. Leverage the customizable response templates that are pre-configured based on jurisdiction. Most importantly, Nymity's DSR Solution equips you with the tools that allow you to provide demonstrable accountability and compliance. Robust reporting ensures that you will always be regulator ready, as reports are dynamically updated based on changing regulatory expectations allowing you to demonstrate the right compliance for your jurisdiction.

- Fast and accurate data subject request resolution
- Demonstrable accountability and compliance
- Low-risk authentication and requestor response security
- Privacy expertise not required
- Works in conjunction with other Nymity Solutions –  
Templates™; Research™; ExpertPIA™; LawTables™; Attestor™

### Key Features

#### Regulator Ready Reporting

As with all of Nymity's solutions, Nymity DSR™ equips users with the tools to demonstrate accountability and compliance. When it comes to privacy, being able to demonstrate compliance is as important as compliance itself.

#### Power Dashboard

Utilize the dashboard to ensure proactive and timely responses to data subject requests, and improve management of data collection from requestors and employees.

#### Compliance Panel

Keep up-to-date through every phase of a Data Subject Request through the Compliance Knowledge Panel. Relevant and contextual information is continually updated.

#### Response Templates

Save time. Remove the guesswork out of preparing responses. Leverage the preconfigured response templates or customize them to fit your organization's needs.

# Privacy Compliance & Accountability Software Solutions for GDPR, CCPA & the World's Privacy Requirements

## PRIVACY MANAGEMENT SOFTWARE

NYMITY  
**EXPERTPIA™**

Nymity ExpertPIA™ is a next generation privacy impact assessment tool that uses an expert system to automate the complicated criteria for conducting a DPIA required by Article 35 of the GDPR.

NYMITY
